### **Central Bank Staff Supports PTA**

Central Bank Fulton challenged their staff to get involved in a current fundraising drive throughout Clinton, and they accepted. Several organizations, including PTA units from various schools throughout Clinton have set a goal to purchase 2,000 smoke detectors. This goal allows one detector to be purchased and installed for every elementary family in Clinton. The fund drive follows a recent house fire tragedy that claimed the lives of two young students. A minimal \$10.00 donation purchases one smoke detector with a ten-year battery life, thus providing safety and extra warning to households throughout Clinton.

Central Bank's challenge was for every donation the staff made, the bank would match it, ultimately doubling their donation. As a result the Central Bank staff is proud to provide funding for 20 new smoke detectors to help families throughout Clinton with peace-of-mind.
