Central Bank Supports Fulton Fire Department

The Fulton Fire Department recently began a fundraising drive for the purchase of new air packs for the firefighters. **Central Bank Fulton made a \$2,500.00 donation towards this project.** Randy Clary, Bank president stated, "Central Bank is proud to support this project to ensure the men and women of the Fire Department have the safest equipment available."

The Fire Department's goal is to replace their current 20 minute air packs with a new system allowing firefighters to double the time they can be in a smoke filled atmosphere. Firefighters have set a fundraising goal of \$50,000.00, which is half of the total cost to replace the current air packs. Their hope is that businesses and individuals throughout the fire district will join them and support the fund drive.
