PERSONAL BANKER'S CORNER

One of Central Bank's priorities is your financial security. We'd like to discuss with you a little about fraud. Today, Brenda Dean, a Personal Banker at the Financial Center, will take us through CDARS.

Your deposits at Central Bank Illinois are insured by the FDIC for up to \$250,00.00. What if you have more funds that you would like to invest with us? The answer is CDARS (Certificate of Deposit Account Registry Service)

CDARS is the easiest most convenient way to enjoy access to full FDIC insurance coverage on large deposits. Everything is handled through our bank. Your large deposit is broken into smaller amounts and placed into other banks that are member of the CDARS network. Then, those banks issue CD's in amounts under the standard FDIC insurance maximum, so that your entire investment is eligible for FDIC protection. By working with just one bank, our bank, you can receive insurance through many banks. You earn on rate on your entire investment, so you can forget about multiple rate negotiations and the need to consolidate multiple disbursement checks. You may receive one regular account statement listing of all of your CD's, along with their issuing banks, maturity dates, interest earned, and other details.

Stop by or call for more information!
