CENTRAL Classic Club

Classic Club is always on the go. Our club's Door County Getaway was a relaxing way to see the sites and enjoy a few days exploring the beautiful Door County Peninsula. We hit the jackpot during our fall adventure to the very beautiful state of Vermont as we experienced "Peak Week". Recently our day tours kicked off the holidays with "White Christmas" at the Fireside Theatre and "Sorry Wrong Chimney" at the Bell Tower Theatre. As always Classic Club tours bring joy in sharing the love of travel along with seeing, exploring and learning about new destinations with other club members.

January brings another year of opportunities. Included is the 2023 Classic Club calendar of events and tours planned just for you. We are pleased to announce the 2024 destinations and will kick these off throughout the year. Did you know that as a Classic Club member you are encouraged to bring a friend to any club event or on tour? Your referral is welcomed and greatly appreciated.

Travel promotes physical activity

Regular physical activity is one of the most important things you can do for your health. Being physically active can improve your brain health, help manage weight, reduce the risk of disease, strengthen bones and muscles, and improve your ability to do everyday activities. Travel allows you the opportunity to be active throughout the entire day, visiting local attractions, participating in fun activities, or just generally exploring. Most of the time, you probably won't even notice that you're working your muscles more frequently because you're so excited to learn about your new destination. A stroll down the beach at sunset or a walk through the bustling city at night is an exhilarating way to immerse yourself in your new destination and find out more about the culture, while also getting extra exercise.
